- Sreyas S (2021111016)

ANALYSIS & CHANGES:-

- The ER Diagram is made precisely similar to the features mentioned in the Project Phase - 1 Document.
- Name of a relation *("SENDS")* is changed from the initial document to *("SENT BY")* to ensure the top-down relationship direction in the ER Diagram.
- *"Meta-Reality"* is made a strong entity type with Primary Key(Location,Time,Climate). This change is made as we realized this entity to not to be weak, but rather strong due to its unique nature in itself.
